Education

Akal University, Talwandi Sabo

B.Tech in Computer Science & Engineering (AI/ML)

CGPA: 8.52/10.0 | Expected Graduation: 2028

Technical Skills

Languages: Python, C++, C, Dart, JavaScript

Frameworks & Tools: Flutter, FastAPI, Node.js, Git, GitHub

Databases: Supabase, SQL

Machine Learning: TensorFlow, Scikit-learn, Pandas, NumPy

Cloud: AWS Fundamentals

Projects

E-GatePass Management System

- Developed a hostel gatepass platform with automated parent approval workflows.
- Built Flutter frontend and integrated FastAPI backend with Supabase.
- Implemented secure QR-based verification and notification system.
- **Tech Stack:** Flutter, FastAPI, Python, Supabase, Twilio.

Image Caption Generator

- Developed a deep learning model to generate captions from images.
- Performed feature extraction using VGG16 and sequence modeling with LSTM.
- **Tech Stack:** Python, TensorFlow, Keras, VGG16, NLTK.

Disease Prediction System

- Built a machine learning application for disease prediction using symptom data.
- Applied preprocessing, feature engineering, and model evaluation techniques.

- **Tech Stack:** Python, Scikit-learn, Pandas.

Project Phoenix

- Description: An AI-enabled conversational research assistant platform built to unify fragmented marine datasets for the CMLRE.
 - Role: Co-Author and Developer. Successfully developed the core model, achieving acceptance for a paper presentation at the ICISTM 2025 international conference.
 - Technologies Used: Python, Machine Learning
-

Certifications

- **Oracle Generative AI Professional Certification**
 - **AWS Cloud Foundations**
 - **GitHub Workflow Mastery – Unstop**
-

Achievements

- Maintained **8.52 CGPA** in B.Tech CSE (AI/ML).
 - Built multiple AI/ML and full-stack development projects.
 - Published datasets and project repositories on GitHub and Kaggle.
-

Leadership & Activities

- Worked in a 3-member development team delivering academic software projects.
 - Participated in university technical events and project demonstrations.
 - Assisted peers with machine learning and software development projects.
-
